## DO YOU SMELL AS SWEET AS A BABY?

### Offensive Foot-Sweats and Strong-Smelling Perspiration are Symptoms of Disease.

The body has no bad odor in health; the secretion from the sweat glands is odorless. One should smell as sweetly clean as a healthy baby.

If you or some one else [and it's usually some one else], detect a strong odor of perspiration from your clothing, your body is sick and needs attention. If neglected, you will leave it a prey to every disease.

No amount of powders, perfumes nor ointments will disguise *that* smell. You must go to the seat or cause of the trouble.

In health the body is composed of twelve salts, contained in the blood, which feeds all the tissues; if *one* of these salts is deficient, or wanting, the others are thrown out of balance and cannot do their work, hence DISEASE.

Our SWEAT TABLETS contain *that* which the blood needs to re-establish harmony and correct FOUL-SMELLING PERSPIRATION or OFFENSIVE FOOT-SWEATS.

ONE box of SWEAT TABLETS — ONE month's treatment — for ONE dollar, post-paid. In sending you may ask a question in regard to any physical difficulty that may be troubling you and receive a careful answer from our consulting physician—an M. D. of high standing and wide experience.

**The HOFMAN MFG. CO., HYGIENIC SPECIALTIES, P. O. Box 64, CAMBRIDGEPORT, MASS.**

## Another Declaration of Independence!

In his long and laborious struggle for mental and physical freedom, man will cheerfully welcome a book that is written to free him from the fetters which, as the remains of a dark and barbarous age, still firmly grasp his body and mind. This book, "**The Diagnosis from the Eye**," deals with a wonderful discovery by which everybody with but little gift of observation will become able to diagnose from the iris of the eye alone his inherited and acquired tendencies towards health and disease, the effects which accidents, operations, poisonous drugs and medicines, stimulants and narcotics have had on his system.

But, more than this, the book teaches also how to cure disease, to heal injuries and to keep well and vigorous by the simple methods which nature employs throughout the organic world; it brings a message of hope and health to all who suffer from the pernicious practices of a pseudo-science; *It lightens the way that leads to a happy and harmonious life.*

"The Diagnosis from the Eye" is written in a plain and popular language and contains 150 pages with 72 original illustrations, fully explaining this wonderful art which will be a revelation to you. **Cloth, Prepaid, \$2.00.**

**THE FOUNDATION A Guide to Health, Wealth and Freedom  
OF ALL REFORM**

is a most helpful, instructive and highly interesting treatise on the diet question, elucidating many points hitherto neglected in dealing with this important problem. It contains the following chapters:

1. Man's Position in Nature.
2. Chemistry and Physiology of Nutrition.
3. The Raw Food Question.
4. The Superiority of the Frutarian Diet.
5. Diet-Reform the Ultimate Solution of the Social and Economical Problems.
6. The Ethics of Diet-Reform.

The book contains 100 pages, complete analysis of 40 food-products, raw food dietary for one week and many other valuable features. **Cloth, Prepaid, 50 cts.**

**KOSMOS PUBLISHING CO.**  
**Suite 18-765 North Clark Street, CHICAGO, ILL.**

## SEVEN AND THIRTEEN

“Ask a man to pick out some number between one and ten and you can tell him nine times out of ten what number he has selected, though his selection is made mentally,” said a man who is fond of the odd things, “and when you come to think of it the task of naming the correct number is not a difficult one. In the course of an hour the other day I asked ten men to think of a certain number—any number between one and ten—and I would tell them what number they had fixed their mind on. In nine out of ten I was correct, missing it only once. The minds of nine of the persons selected the number seven and one of them selected nine. It is not difficult to understand why the mind should run to the number seven. It is the most natural thing in the world for the mind to select seven. Even in the case of the man who fixed his mind on the number nine, he told me when it was all over that his mind had first run to seven, but he quickly changed to nine without knowing just why it was that he changed. Seven is the most prominent figure between one and ten. It is the

most popular number in the line and is associated with more things than any other number and it is quite reasonable that the mind should light on seven. I made another test the other day with five persons, asking each of them to write some number between one and ten and give it to a sixth person. When the slips had been handed to the sixth man I said, ‘Seven is the number on each of the slips.’

“‘Correct,’ said the man to whom they had been handed, and the five men were a bit bewildered for the moment by the fact that they had all hit upon the same number and that I was able to tell what the number was. It would be quite as easy to name a number between ten and twenty, though I have made no tests along this line. I dare say that thirteen would be the first number to flash in the mind, simply because it is the most talked-of and the only number between ten and twenty that has the widest association. So you can tell there is no trick about it and it doesn’t require any knowledge of the occult philosophies.”

# ASTROLOGY

Conducted by Dr. Drrolli,

Scientific Astrologer, Hotel Pelham, Boston

These predictions will not fit into every life with accurate details. They are safe predictions from planetary relations and will be found helpful and in the main correct. Of course to get at an individual experience, and to take advantage of precise work, a chart of each person must be studied.

## Lucky and Unlucky Days for August, 1904.

During this month the Sun will be in the sign of Leo, the Lion, where the Sun is the ruler. On the 24th of August the Sun enters Virgo, which is ruled by Mercury. During the month Neptune is in Cancer. Uranus retrogrades through the month in Sagittarius. Saturn retrogrades through the month in Aquarius. Jupiter starts in Aries in the last degrees and enters Taurus and then retrogrades in Taurus after the 21st of the month. Mars is in Cancer until the 15th and then in Leo. Venus is in Leo until the 13th and then in Virgo. Mercury goes out of Leo on the 1st day of the month and is in Virgo until the 28th and then in Libra for the rest of the month.

1. The month opens well and has more than ordinary good power for the beginning of important events. A good start for Monday morning.
2. Tuesday is also forceful and probably safe for anything you would be likely to undertake.
3. Rather better. It is not so good for women as for men. Women must not believe all that the men say.
4. Not a strong day by any means. Not particularly good to begin an important duty. Your ideas will be very fixed. Don't scrap.
5. A first-rate day for a vacation but not a good day for important business enterprises.
6. Nothing special. It will be about as you make it.
7. Tenth Sunday after Trinity. The influences both socially and in fact in all ways are helpful. A fine relation of the Moon with Venus will make some pleasing tales sound very nice. She will listen.
8. If possible let the vacation experience and the outing idea be stronger than the business application.
9. Good in almost every direction. A journey planned or undertaken would be all right.
10. The opposition of the Sun to Saturn is not a very good feature, but it will suggest caution rather than action.
11. A new Moon and an opposition of the Moon to Saturn. A day of mixed influences and rather doubtful as to duty; go slowly.
12. All right. Push it. Get something out of it. Particularly good on the social side. A good day to ask that important question.
13. "How lovely is Saturday night when I have tried all the week to be good." Let us hope that you have.
14. Sunday. Read Geo. Herbert's hymn. If you travel by land or by sea or paddle round in a canoe, be unusually careful against accidents.
15. This is one of the days worth waiting for. An unusually good time to start in on an important matter.
16. Another good day. Let the good work go on.
17. Not quite as strong but good enough. Use it, and count your mercies.
18. Rather a shaky day. Better rest a little.
19. Another like yesterday. Not much headway will you make in your thinking or your planning.
20. This is first-class. There is but little to criticise here.
21. A poor Sunday for any worldly acts. Better join hands with the preacher and help him along. Not a very good day for safety in travel. Read tomorrow's papers and see what happened to some foolhardy people.
22. No criticisms to offer. Do your best.
23. A little slow but not bad. Go carefully and it is all right.
24. Is off color. I should not want to undertake a risky thing or to press matters too vigorously.
25. All right and rather better than that. You ought to make some money today. A good day to wind up a lot of old accounts and schemes. As the vacations are maturing you better get your case settled with that young lady also.

26. Full Moon. Poor opening, growing better all day, the evening being strong and very helpful.
27. Not very good socially, but well enough for business matters.
28. The safest thing for you to do today would be to keep out of mischief, and if you go to church we shall know where you are part of the time.
29. A first-rate day and a strong one for almost any purpose. Don't get left.
30. Almost as good. Get all of the juice out of the lemon that you can.
31. Another equally good, winding the month up in first-rate shape in almost any direction.

## September.

Until the 23rd of the month the Sun is in Virgo ruled by Mercury. The Moon starts in Taurus, going into Gemini the 2d, 3d and 4th. As a rule the Moon is in each successive sign two days in each month. The other planets are so nearly in the position described for August as to make comment unnecessary.

1. Not a strong day and not a bad one. The afternoon is the better time. A conservative act would be all right.
2. This is all right and you better push it.
3. Not a bad day by any means and in some ways particularly good. A business transaction in the early part of the day or between one and two will be all right.
4. Sunday, and one of the poorest kind of a day you can imagine for any enterprises; consequently you will not be tempted to think of the business side as much as you might otherwise.
5. This pays for waiting; it is all right, particularly from eleven to three.
6. Nothing special. The best part of the day is after the last meal. The social side is better than the business side.
7. With the exception of the opposition of the Moon to Saturn in the early evening, matters will be likely to come out favorably.
8. Go ahead. Start things that you have been thinking about.
9. A new Moon and rather a good sort of a day on the whole, take it all through.

10. Is another day of good impetus, and safe for carrying out your best plans. Not so good to travel as some other days.
11. Sunday, and a first-class, all-around day.
12. First rate; make your hay if it isn't too late; but a good day to culminate important planning.
13. Another where your judgment and the influences about you will all be helpful.
14. Another good day. This section of the month seems to be rather strong. Use it.
15. Another good day. What good luck we have.
16. Forenoon is particularly good; the afternoon is a good time to clear up things.
17. Winds the week up well with but very few bad spots.
18. Sunday. A good day socially with the influences kindly in every way.
19. Starts out well but peters out towards night. Go to bed early and keep out of mischief.
20. No great force; flat.
21. Starts in again with better influences and is a day that you ought to take hold of with enthusiasm.
22. Will bear pressing in all good directions, and is a day of good force and good results.
23. Another fine day for you. Put your best foot forward and fear not.
24. A full Moon and upon the whole another strong day.
25. Sunday and a good one. Now that vacation time is nearly over, suppose you go to church just to see how it will seem.
26. Another tip-top day; and if you have not taken advantage of this good streak which has been running along for so many days you must not blame me.
27. Now that the Sun is in Libra in the scales of Justice, do not jump into important matters without consideration and thus disturb the evenness of things.
28. Until after two o'clock there is not much force in this day. The afternoon and evening seem to be quite favorable.
29. All right in all directions.
30. The month winds up finely with good influences in a way to help you in almost every endeavor.

Owing to the illness of the editor and publisher of *Ye QUAINT MAGAZINE*, this number is issued to keep up the continuity of publication and to provide for those readers who desire to follow Dr. Derolli's predictions. Subscriptions will be extended one month and advertisers will be provided for in the next number.

---

#### WEATHER FOR AUGUST.

The earlier days should be cloudy and probably rainy, followed about the fifth by cooler weather. Higher temperature with storms will follow for several days; much lightning and some damage to property will occur in the second week. About the middle of the month damage on the southern coasts and probable loss of life. The third week should show some very hot and damp weather. The closing days cooler, with heavy rains in many sections.

#### WEATHER FOR SEPTEMBER.

The change from the cool, damp days of closing August will not be apparent at once, for we may expect during the first half of September some very decided days of cool, windy, rainy spells, disagreeable enough. In fact the whole month will be so full of quick transitions as to be remembered, and we may expect all sorts of combinations and very little of continued pleasant weather.

---

#### LUNDIN'S

## Turkish .. Baths

The finest and most modern baths in the city now re-opened after extensive alterations and renovations. Gentlemen week-day afternoons, all night and Sunday afternoons. Ladies week-day mornings and Sunday afternoons.

**ADOLPH LUNDIN, Prop.**

Tells when to plant and harvest by the moon. Predictions about crops, weather, sickness, future events and lucky days. Sample copy 4 cents.

PROF. Q. MACDONALD, Binghamton, N. Y.

# **SCOOPING UP GOLD**

## **AND PLATINUM WITH DREDGES**

(a) Dredging for gold and platinum in rich river beds is the most profitable of all methods of mining. (b) It has the least element of speculation, because values can be determined in advance. [c] We are now in the "early days" of gold and platinum dredging, although over a hundred such dredges are now in successful operation. [d] This business is capable of paying the largest legitimate dividends of any industry, because it secures nature's richest deposits at a trifling expense. [e] This company presents a reasonable certainty of several hundred per cent. dividends upon investments made now. [f] Literature sent free to inquirers. Address

**The Gold & Platinum Mining Co.  
of Boston**

**5 Park Square - - - Boston, Mass.**
